Sukhun Ko

hun-hub | Sukhun Ko | mysite.com | looloo330@cau.ac.kr | +82-10-8014-5027

Summary

M.S. student in CMLab at Chung-Ang University, supervised by Prof. Jihyong Oh. My research focuses on diffusion-based generation, implicit neural representations, and 3D reconstruction.

Work Experience

Generative AI Intern, ConnectBrick Sep. 2024 – Dec. 2024

Contributed to FoodStyler, a **generative AI-based image compositing** project under Jector AI.

Project Leader, Research Project with DEXTER STUDIOS Sep. 2025 – Dec. 2025

Led a commissioned research project, "Backend Platform Development for Mobile Application Development," funded by DEXTER STUDIOS, focusing on **generative AI-based style transfer**.

Education

2025 – present	M.S. in Imaging Science, AI Content, Chung-Ang University, Seoul	(GPA: 4.47/4.5)
2019 – 2024	B.S. in Big Data Convergence, Sangmyung University, Seoul	(GPA: 4.0/4.5)

Publications

1. **Sukhun Ko**, Soo Ye Kim†, and Jihyong Oh†. "Chameleon: Style-Content Disentangled Framework for Cross-Domain Object Compositing." *Under Review*. Collab. w/ **Adobe Research**.
2. **Sukhun Ko***, Seokhyun Youn*, Weeyoung Kwon, and Jihyong Oh†. "Band-Localized Splatting: Frequency-Selective Appearance Modeling for High-Frequency Surface Reconstruction." *Under Review*.
3. **Sukhun Ko**, SeokHyun Youn, Dahyeon Kye, Kyle Min, Chanho Eom, and Jihyong Oh†. "FLAIR: Frequency- and Locality-Aware Implicit Neural Representations." *CVPR 2026 Findings*. Collab. w/ **Oracle**.
4. Dahyeon Kye, Changhyun Roh, **Sukhun Ko**, Chanho Eom, and Jihyong Oh†. "AceVFI: A Comprehensive Survey of Advances in Video Frame Interpolation." *IEEE TCSVT*, 2026.
5. **Sukhun Ko**, Chanho Eom, and Jihyong Oh†. "Implicit Neural Representations: A Holistic Survey of Techniques, Applications, and Challenges." *IEIE SPC*, 2026.

* Equal contribution. † Corresponding author.

Research Interests

Generative AI	Flow Matching Models, Image Editing & Compositing, Agentic Video Generation
Low-Level Vision	Implicit Neural Representations, Super-Resolution, Video Frame Interpolation
3D Reconstruction	Neural Radiance Fields, 3D Gaussian Splatting

Skills

Programming & Development	Python, C/C++, Flask, Android Development
Data Science	SQL, NoSQL, Tableau, AWS S3
AI Frameworks & Tools	PyTorch, TensorFlow, OpenCV, Docker, Diffusers, Gradio
